<<Chocolate Fever 巧克力>>

内容概要

Henry loves chocolate so much, it practically runs through his veins. Chocolate cake, chocolate cereal, chocolate syrup, chocolate milk, and chocolate cookies—and that 's just breakfast! Still, it comes as a shock when he suddenly breaks out in chocolaty brown spots and is diagnosed with . . . Chocolate Fever. And, rather than be poked and prodded by doctors, Henry runs away, starting the adventure of a lifetime. But at the end of it all, the question remains: Is there a cure for Chocolate Fever?

If there was one thing you could say about Henry it was that he surely did love chocolate. "Probably more than any boy in the history of the world," his mother said. "How does Henry like his chocolate?" Daddy Green would sometimes joke. "Why, he likes it bitter, sweet, light, dark, and daily." And it was true. Up until the day we're talking about right now,
