## <<肝胆与胰腺(第三卷)>>

#### 内容概要

The Requisites in Gastroenterology series clearly and succinctly encompasses all of the core knowledge in the field. This third volume covers the diagnosis and management of disorders of the hepatobiliary tract and pancreas, discussing pitfalls and presenting evidence-based perspectives throughout. A concise, user-friendly formatwith at-a-glance illustrations, boxes, and tablesenables readers to access information quickly. The result is an outstanding resource both for certification and recertification review and for clinical reference. Focuses on exactly what readers need to know for certificationno more, no less. Uses algorithms, tables, and boxes to clarify key facts and concepts. Each chapter begins with a contents list for easy & quick reference. Offers practice-proven, authoritative guidance from established experts.
