内容概要

This volume in the Foundations in Diagnostic Pathology Series packs today's most essential endocrine pathology know-how into a compact, high-yield format! Its pragmatic, well-organized approach, abundant full-color illustrations, and at-a-glance tables make the information you need easy to access. Reviews normal histology before examining abnormal findings. Covers all of the most commonly seen neoplastic and non-neoplastic conditions of the endocrine system. Uses a consistent, user-friendly format to explore each entity's clinical features · pathologic features (gross and microscopic) · ancillary studies · differential diagnoses · and prognostic and therapeutic considerations. Offers hundreds of full-color illustrations that demonstrate the key features of a wide variety of pathologic lesions. The Foundations in Diagnostic Pathology Series answers the call for fresh, affordable, and easy-to-use guidance. Each region-specific volume provides all of the most essential information on the pathologic entities encountered in practice. Series Editor: John R. Goldblum, MD, FACP, FASCP, FACG

书籍目录

Chapter 1 Non-neoplastic Lesions of the Thyroid Gland Carol Adair
Chapter 2 Benign Neoplasms of the Thyroid Gland Lester DR Thompson
Chapter 3 Malignant Neoplasms of the Thyroid Gland Lester DR Thompson
Chapter 4 Non-neoplastic Lesions of the Parathyroid Gland Lester DR Thompson
Chapter 5 Benign Neoplasms of the Parathyroid Gland Lester DR Thompson
Chapter 6 Malignant Neoplasms of the Parathyroid Glands Lester DR Thompson
Chapter 7 Non-neoplastic Lesions of the Adrenal Gland Jacqueline A Wieneke and Lester DR Thompson
Chapter 8 Benign Neoplasms of the Adrenal Gland Lester DR Thompson and Jacqueline A Wieneke
Chapter 9 Malignant Neoplasms of the Adrenal Gland Ronald R de KrUger and Paul Komminoth
Chapter 10 Non-neoplastic Lesions of the Pituitary Gland Lester DR Thompson and Clara S Heffess
Chapter 11 Benign Neoplasms of the Pituitary Gland Lester DR Thompson and Clara S Heffess
