<<应急措施导论 Emergency M>>

内容概要

Where do you want to go? You might already be working in the emergency management field, and may be looking to expand your skills. You might be setting out on a new career path. Or, you might want to learn more about exciting opportunities in emergency management. Wherever you want to go, Hazard Mitigation and Preparedness will help you get there. Easy-to-read, practical, and up-to-date, this text not only helps you learn fundamental hazard mitigation concepts, it also helps you master the core competencies and skills you need to succeed in the classroom and beyond. The book's brief, modular format and variety of built-in learning resources enable you to learn at your own pace and focus your studies.

作者简介： Dr. Michael K. Lindell is Professor of Landscape Architecture and Urban Planning, Texas A&M University; Senior Scholar, Hazard Reduction and Recovery Center, Texas A&M University; Adjunct Professor, Department of Psychology, Texas A&M University. Dr. Lindell has over 30 years of experience in the field of emergency management, during which time he has conducted a long term program of research on the processes by which individuals and organizations respond to natural and technological hazards. Much of his research, especially that supported by the National Science Foundation (NSF), has examined the processes by which affected populations respond to warnings of the imminent threat of a hazard. This research has been conducted in communities affected by hazards as diverse as flooding, volcanic eruption, hazardous materials, and hurricanes. Professor Lindell also has had extensive experience in providing technical assistance to government agencies, industry groups and private corporations in developing emergency plans and procedures. He has served six times as a consultant to the International Atomic Energy Agency in developing planning guidance for response to nuclear and radiological incidents, has made three presentations in National Academy of Sciences panels, and is currently a member of two National Academy of Sciences panels - Disasters Research in Social Sciences and Assessing Vulnerabilities Related to the Nation's Chemical Infrastructure. Professor Lindell has written extensively on emergency management and is the author of 70 technical reports, 70 journal articles and book chapters, and six books/monographs.
