<<SAP 企业服务架构精解 Maste>>

内容概要

SAP is investing billions to redesign its flagship R/3 product line based on its ESA, and that ESA will become the standard framework for developing all new SAP ERP applications with NetWeaver. This book provides an overview of the core building blocks of SAP's new ESA, and shows how ESA works with the NetWeaver platform as well as mySAP ERP. A step-by-step action plan proposes ideas for designing ESA-based SAP applications. The companion Web site contains in-depth case examples that show how to build various SAP services and applications using the NetWeaver development tools, plus third-party tools. Some of the SAP tools covered include NetWeaver Developer Studio, WebDynPro and NetWeaver Portal, NetWeaver BI, and the SAP Composite Application Framework. 作者简介： Scott Campbell has more than 15 years of experience in the IT industry. He is currently a Partner with MomentumSI, where he leads the firm's SAP NetWeaver practice, which helps organizations develop their ESA road maps, leverage NetWeaver tools to build process-driven composite applications, and deliver training and mentoring for professionals working in SOA and Web services environments.

书籍目录

About the Authors Foreword Acknowledgments Introduction Part I: Understanding SAP 's ESA Strategy
Chapter 1: ESA Is Coming Chapter 2: ESA in Context: The Emergence and Benefits of SAP 's " Applistructure
" Chapter 3: Enabling ESA: The Evolution of NetWeaver and mySAP ERP Chapter 4: The SAP ESA
