<<(冷眼看企业)THE BOMBAST >>

内容概要

While Locke's semantic antics will have you in stitches, his real aim is the jugular--via a triple bypass that transplants business, media, and social mores into a carnivalesque landscape of the imagination where conventional logic bellies up and flatlines. Part scathing sendup of commercial techno-fetishism, part hysterical standup on the theme of spiritual bankruptcy, part intimate memoir of a remarkably vibrant and uncompromising life, *The Bombast Transcripts* will rock you, shock you, and leave you deeply pondering what *The Economist* once called "the wisdom of RageBoy."
