<<My Best Book of Shar>>

内容概要

Format 270 x 230mm

Enter the ferocious underwater world of the shark - everything about it is designed for deadly speed, from its light, flexible skeleton and sleek, streamlined shape, to its strong tail and stiff, paddle-like fins. My Best Book of Sharks is a superb introduction to this extraordinary family, and features its most deadly members as well as its gentle giants. The young reader can discover a wealth of information about sharks, including where they live, how they feed, how young are born, and which fish live on a shark's body.

Key Features :

Popular title in favourite series

Tailor-made - interest level, design and readability just right

Unrivalled - no other giftbook non-fiction series of this quality for the age-group

Favourite topics for children in this age range

Experienced children's authors expert in subject areas

Enter the mysterious world of the shark and learn how these fascinating creatures have adapted to the world in which they live. Read about the deadly great white shark and tiger shark, and contrast them with the shark family's gentle giants - the whale shark and the basking shark. The book features illustrations of the many members of the shark family, scenes of the world beneath the sea and step-by-step pictures and captions which outline the life cycle of the shark.
