<<疼痛物理诊断>>

内容概要

The only atlas devoted to the physical diagnosis of pain! Dr. Steven Waldman presents a clear, how-to-do-it approach to the accurate diagnosis of 300 conditions through their physical signs and symptoms. Six hundred illustrations and a bonus DVD with video-clips make every technique easy to understand and apply. Examines the full range of conditions in the shoulder and upper extremity, elbow and forearm, wrist and hand, spine, hip, knee, ankle, and foot. Integrates 100 original color drawings by respected medical illustrator Joe Bloch as well as 500 crisply reproduced radiographic and MR images. Demonstrates how to perform physical examinations for pain with videoclips on DVD of Dr. Waldman and his staff evaluating patients.

<<疼痛物理诊断>>
