<<男性语言探秘>>

内容概要

Finally, a reliable guide to understanding half the population—MEN. Humorist Sherrie Weaver reveals these well-kept secrets so you, too, will know what the men in your life really mean when they say things like: "Let's take your car."—Mine is full of beer cans, burger wrappers and out of gas. "I like a woman with a mind of her own."—Provided she doesn't use it. "I'm really busy."—Baywatch is on, and it's the one where the lifeguards lose their suits in the undertow.
