## <<Lonely Planet Brazil>>

### 内容概要

Nobody covers the world like Lonely Planet.' --New York Post, May 2004. Wander the streets of bohemian Lapa, where samba spills from every doorway. Swim eyeball-to-eyeball with hundreds of exotic fish in crystalline waters. Brave near-vertical descents on a wind-whipped dune buggy ride. Sling a hammock and relax as your riverboat glides up the Amazon. Seven authors, 375 days of in-country research, 33 types of transport (including water buffalo, mine car and canoe). 50% more coverage of chic, dynamic Sao Paulo. A samba musician, a wildlife tour guide and other locals introduce you to their Brazil. Content updated daily - visit [lonelyplanet.com](http://lonelyplanet.com) for up-to-the-minute reviews and traveler suggestions.
