<<麻醉原理 Fundamentals of >>

内容概要

The second edition of Fundamentals of Anaesthesia builds upon the success of the first edition, and encapsulates the modern practice of anaesthesia in a single volume. Written and edited by a team of expert contributors, it provides a comprehensive but easily readable account of all of the information required by the FRCA Primary examination candidate and has been expanded to include more detail on all topics and to include new topics now covered in the examination. As with the previous edition, presentation of information is clear and concise, with the use of lists, tables, summary boxes and line illustrations where necessary to highlight important information and aid the understanding of complex topics. Great care has been taken to ensure an unrivalled consistency of style and presentation throughout.

<<麻醉原理 Fundamentals of >>

书籍目录

Preface
Section Editors
Contributors
Acknowledgements
List of abbreviations
SECTION 1 : CLINICAL ANAESTHESIA
Chapter 1: Pre-operative Management
Chapter 2: Induction of Anesthesia
Chapter 3: Intra-operative Management
Chapter 4: Postoperative Management
Chapter 5: Special Patient Circumstances
Chapter 6: The Surgical Insult
Chapter 7: Regional Anesthesia & Analgesia
Chapter 8: Principles of Resuscitation
Chapter 9: Major Trauma
Chapter 10: Clinical Anatomy
SECTION 2: PHYSIOLOGY
Chapter 1: Cellular Physiology
Chapter 2: Body Fluids
Chapter 3: Haematology and Immunology
Chapter 4: Muscle Physiology
Chapter 5: Cardiac Physiology
Chapter 6: Physiology of the Circulation
Chapter 7: Renal Physiology
Chapter 8: Respiratory Physiology
Chapter 9: Physiology of the Nervous System
Chapter 10: Gastro-intestinal Physiology
Chapter 11: Metabolism and Temperature Regulation
Chapter 12: Endocrinology
Chapter 13: Physiology of Pregnancy
Chapter 14: Foetal and Newborn Physiology
SECTION 3: PHARMACOLOGY
Chapter 1: Physical Chemistry
Chapter 2: Mechanisms of Drug Action
Chapter 3: Pharmacodynamics
Chapter 4: Pharmacokinetics
Chapter 5: Anaesthetic Gases and Vapours
Chapter 6: Hypnotics and Intravenous Anaesthetic Agents
Chapter 7: Analgesic Drugs
Chapter 8: Neuromuscular Blocking Agents
Chapter 9: Local Anaesthetic Agents
Chapter 10: Central Nervous System Pharmacology
Chapter 11: Autonomic Nervous System Pharmacology
Chapter 12: Cardiovascular Pharmacology
Chapter 13: Respiratory Pharmacology
Chapter 14: Endocrine Pharmacology
Chapter 15: Gastro-intestinal Pharmacology
Chapter 16: Intravenous Fluids
Chapter 17: Pharmacology of Haemostasis
Chapter 18: Antimicrobial Therapy
Chapter 19: Clinical Trials-Design and Evaluation
SECTION 4: PHYSICS, CLINICAL MEASUREMENT AND STATISTICS
Chapter 1: Applied Physics
Chapter 2: Clinical Measurement
Chapter 3: Anaesthetic Equipment
Chapter 4: Basic Statistics
Index
