## <<Advanced Studies in >>

#### 图书基本信息

书名: <<Advanced Studies in Biometrics 高级生物特征识别研究>>

13位ISBN编号: 9783540262046

10位ISBN编号: 3540262040

出版时间:2005-06-28

出版时间:Springer

作者: Tistarelli, Massimo; Bigun, Josef; Grosso, Enrico

页数:158

版权说明:本站所提供下载的PDF图书仅提供预览和简介,请支持正版图书。

# <<Advanced Studies in >>

#### 内容概要

Automatic person authentication, the identification and verification of an individual as such, has increasingly been acknowledged as a significant aspect of various security applications. Various recognition and identification systems have been based on biometrics utilizing biometric features such as fingerprint, face, retina scans, iris patterns, hand geometry, DNA traces, gait, and others. This book originates from an international summer school on biometrics, held in Alghero, Italy, in June 2003. The seven revised tutorial lectures by leading researchers introduce the reader to biometrics-based person authentication, fingerprint recognition, gait recognition, various aspects of face recognition and face detection, topologies for biometric recognition, and hand detection. Also included are the four best selected student papers, all dealing with face recognition.

## <<Advanced Studies in >>

#### 书籍目录

Combining Biometric Evidence for Person AuthenticationBiometric Gait RecognitionA Tutorial on Fingerprint RecognitionSpiral Topologies for Biometric RecognitionStatistical Learning Approaches with Application to Face DetectionHand Detection by Direct Convexity EstimationTemplate-Based Hand Detection and TrackingStudent Papers 3D Face Recognition Using Stereoscopic Vision Selection of Location, Frequency, and Orientation Parameters of 2D Gabor Wavelets for Face Recognition A Face Recognition System Based on Local Feature Characterization Influence of Location over Several Classifiers in 2D and 3D Face VerificationAuthor Index
