## 内容概要

This book constitutes the refereed proceedings of the 20th European Conference on Object-Oriented Programming, ECOOP 2006, held in Nantes, France in July 2006. The 20 revised full papers, presented together with 3 keynote papers were carefully reviewed and selected from 162 submissions. The papers are organized in topical sections on program query and persistence, ownership and concurrency, languages, type theory, types for object-oriented languages, tools, and modularity. In addition there are 5 retrospective and prospective papers from a special 20th anniversary session for the ECOOP conference series.

书籍目录

Keynote Design Patterns-15 Years Later Program Query and Persistence CodeQuest: Scalable Source Code Queries with Datalog Efficient Object Querying for Java Automatic Prefetching by Traversal Profiling in Object Persistence Architectures Ownership and Concurrency The Runtime Structure of Object Ownership On Ownership and Accessibility Scoped Types and Aspects for Real-Time Java Transparently Reconciling Transactions with Locking for Java Synchronization Special 20th Anniversary Session Object Technology-A Grand Narrative? Peak Objects Form Ecoop'87 to ECOOP 2006 and Beyond The Continuing Quest for Abstraction Early Concurrent/Mobile Objects Keynote Turning the Network into a Database with Active XML Languages SuperGlue: Component Programming with Object-Oriented Signals Ambient-Oriented Programming in AmbientTalk Responders: Language Support for Interactive Applications Type Theory Variance and Generalized Constraints for C~ Generics A Semantic Analysis of C++ Templates Session Types for Object-Oriented Languages Parameterized Modules for Classes and Extensible Functions Keynote The Closing of the Frontier Tools Modularity Author Index
