

<<Spatial Information >>

图书基本信息

书名：<<Spatial Information Theory. Foundations of Geographic Information Science: International Conference, COSIT 2001 Morro Bay, CA, USA, September 19-23, 2001 Proceedings (平装)>>

13位ISBN编号：9783540426134

10位ISBN编号：3540426132

出版时间：2001-10

出版时间：1 (2001年10月1日)

作者：Daniel R. Montello

页数：502

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## <<Spatial Information >>

### 内容概要

The LNCS series reports state-of-the-art results in computer science research , development , and education , at a high level and in both printed and electronic form. Enjoying tight cooperation with the R&D community , with numerous individuals , as well as with prestigious organizations and societies , LNCS has grown into the most comprehensive computer science research forum available. The scope of LNCS , including its subseries LNAI , spans the whole range of computer science and information technology including interdisciplinary topics in a variety of application fields. The type of material published traditionally includes. —proceedings ( published in time for the respective conference ) —post-proceedings ( consisting of thoroughly revised final full papers ) —research monographs ( which may be based on outstanding PhD work , research projects , technical reports , etc. ) .

书籍目录

Keynote Lecture A Geographer Looks at Spatial Information Theory Geospatial Ontology and Ontologies True  
 Grid A Taxonomy of Granular Partitions A Geometric Theory of Vague Boundaries Based on  
 Supervaluation Qualitative Spatio-Temporal Reasoning When Tables Tell It All: Qualitative Spatial and  
 Temporal Reasoning Based on Linear Orderings Computational Structure in Three-Valued Nearness Relation  
 Qualitative Spatio-temporal Continuity Formalizations of Human Spatial Cognition Application of  
 Supervaluation Semantics to Vaguely Defined Spatial Concepts Spatial and Cognitive Simulation with  
 Multi-agent Systems A Virtual Test Bed in Support of Cognitively-Aware Geomatics Technologies Space  
 , Cognition, and Information Systems Evaluating the Usability of the Scale Metaphor for Querying Semantic  
 Spaces A Semantic Map as Basis for the Decision Process in the www Navigation Pragmatism and Spatial Layout  
 Design Navigation: Human and Machine Approaches Spatial Frames of Reference Used in Identifying Direction of  
 Movement: An Unexpected Turn The Role of a Self-Reference System in Spatial Navigation The Utility of Global  
 Representations in a Cognitive Map Keynote Lecture How Spoken Language and Signed Language Structure  
 Space Differently Language and Space Two Path Prepositions: Along and Past Ambiguity in Acquiring Spatial  
 Representation from Descriptions Compared to Depictions : The Role of Spatial Orientation When and Why  
 Are Visual Landmarks Used in Giving Directions ?  
 Space , Cognition , and Information Systems Keynote Lecture Cognitive Mapping Qualitative Spatio-Temporal  
 Reasoning Geospatial Ontology and Ontologies Author Index
