

<<面向智能主体的信息系统 III>>

图书基本信息

书名：<<面向智能主体的信息系统 III>>

13位ISBN编号：9783540482918

10位ISBN编号：3540482911

出版时间：2005-12

出版时间：湖南文艺出版社

作者：Kolp, Manuel; Bresciani, Paolo; Henderson-Sellers, Brian

页数：290

## <<面向智能主体的信息系统 III>>

### 内容概要

This book constitutes the thoroughly refereed post-proceedings of the 7th International Bi-Conference Workshop on Agent-Oriented Information Systems, AOIS 2005, held in Utrecht, Netherlands, in July 2005 and in Klagenfurt, Austria, in October 2005. The 19 revised full papers presented have gone through two rounds of reviewing and improvement and were carefully selected for inclusion in the book. The papers are organized in topical sections on agent behaviour, communications and reasoning, methodologies and ontologies, agent-oriented software engineering, as well as applications.

<<面向智能主体的信息系统 III>>

书籍目录

Agent Behavior, Communications and Reasoning Automated Interpretation of Agent Behaviour A Semantic and Pragmatic Communication Languages Framework for the Specification of Agent Motivational Attitudes and Norms Broadening the Semantic Coverage of Agent Communicative Acts Requirements Analysis of an Agent's Reasoning Capability On the Cost of Agent-Awareness for Negotiation Services OWL-P: A Methodology for Business Process Development Methodologies and Ontologies Identification of Reusable Method Fragments from the PASSI Agent-Oriented Methodology Foundations of Ontology-Based MAS Methodologies An Ontology-Driven Technique for the Architectural and Detailed Design of Multi-agent Frameworks An Ontology Support for Semantic Aware Agents Agent-Oriented Software Engineering AOSE and Organic Computing - How Can They Benefit from Each Other? An Agent-Oriented Model of a Dynamic Engineering Design Process Formalizing Agent-Oriented Enterprise Models. Fragmented Workflows Supported by an Agent Based Architecture Applications An Agent-Based Meta-level Architecture for Strategic Reasoning in Naval Planning Coordination Efficiency in Rational Choice Theory, Norm and Rights Based Multi-agent Systems Adapted Information Retrieval in Web Information Systems Using PUMAS Design Options for Subscription Managers Supporting Program Indexing and Querying in Source Code Digital Libraries Author Index
