<<数据结构和编程设计>>

图书基本信息

书名：<<数据结构和编程设计>>

13位ISBN编号：9787030362230

10位ISBN编号：7030362233

出版时间：2013-1

出版时间：Robert Kruse、C.L.Tondo、 Bruce Leung 科学出版社 (2013-01出版)

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

编辑推荐

《数据结构和编程设计——应用C语言(第2版)》以C++为描述语言，系统介绍数据结构的有关内容及程序设计方法。
每章都是先引入实例，然后结合实例讲解知识点，每章后都附有指针和陷阱的内容，还配有复习思考题，以检验读者的学习效果和培养读者的程序设计能力。
此外，每章后还有深入学习本章知识点的阅读参考资料，有利于读者加深对本章知识点的理解。
全书既注重原理又重视实践，内容叙述详细，并配有大量的实例和习题。
书中所有算法均在计算机上运行通过，且程序中做了较详细的注解，有利于读者理解算法的实质和编程思想。
本书由克鲁斯等著。
