前言

如何让《厨师职业英语》更加实用是编写本书时考虑最多的问题。

曾问过几位国际酒店的外籍行政总厨：“如果要你的员工学习英语，你最希望他们学什么呢？

”“认识厨房里的东西（To know the things in the kitchen）！

”他们不加思索地回答。

认识厨房里的东西——这就是本书的出发点。

有些酒店为了培养餐饮管理人员，安排他们在厨房实习3-6个月，学习厨房工作流程与行政管理，这些人员被称为管理实习生。

本书的主人公George就是这样一位管理实习生。

他师从来自新加坡的行政副总厨Steven先生，在短短的三个月时间里，熟悉了厨房主要工作岗位的主要工作内容，也就是本书的主要内容，包括：厨房的组织与人员结构食品与厨房安全以及个人卫生厨房设备水果与蔬菜肉类与家禽鱼类与贝类奶制品与蛋类汤类与调料类烹饪方式面点书中，George还就中餐及其特色与Steven进行讨论，在了解西餐的同时，加入了部分中餐的经典内容。

最后的菜单部分对于餐饮管理人员来说也是必不可少的。

章节摘录

插图：Steven : George , tell me something about Chinese food. George : Okay , Chinese food emphasizes on its Color , flavor? , and taste at same time. Steven : Yes. And Chinese food does use a rich variety of raw materials. George : You ' re quite right. Chinese chefs are very particular about the selection and preparation of the ingredients used. Besides that , they also pay attention to the combination of main ingredients and auxiliary materials. Steven : Chinese chefs must care about the cutting of ingredients , George : That ' s true. In fact , cutting has been a distinctive feature of Chinese cooking. Some materials like turnips , radishes and tomatoes are often carved into the shapes of flowers and animals for certain finished dishes. Steven : And what are the decisive factors in Chinese cooking ?

George : Cooking time and temperature , I think. Steven : The same as Western food. George : Right. Seasoning is important in Chinese food , too. Steven : I see. Seasoning can help to shape the different styles of Chinese cooking , and time and temperature can help to make the ingredients hard or soft , crisp or tender. George : Yes. In Chinese cuisine , several different techniques are usually used in a dish. Steven : That ' s interesting.
