

图书基本信息

书名：<<CCNA学习指南（英文版附光盘）>>

13位ISBN编号：9787111072874

10位ISBN编号：7111072871

出版时间：1999-07

出版时间：机械工业出版社

作者：（美）Syngress Media公司

页数：579

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

书籍目录

CONTENTS

Foreword

About the Contributors

Acknowledgments

Preface

Introduction

Introduction to Internetworking

Certification Objective 1.01

The Internetworking Model

Network Evolution

The OSI Model

Encapsulation

Certification Objective 1.02

Physical and Data Link Layers

DIX and 802.3 Ethernet

802.5 Token Ring

ANSI FDDI

MAC Addresses

Interfaces

Wide Area Network Services

Certification Objective 1.03

Network Layer and Path Determination

Layer 3 Addresses

Routed Protocols vs. Routing Protocols

Routing Algorithms and Metrics

Certification Objective 1.04

Transport Layer

Reliability

Windowing

Certification Objective 1.05

Upper-Layer Protocols

Certification Objective 1.06

Cisco Routers, Switches, and Hubs

Certification Objective 1.07

Configuring a Cisco Switch and Hub

Certification Summary

Two-Minute Drill

SelfTest

2 Getting Started with Cisco IOS Software

Certification Objective 2.01

User Interface

User and Privileged Modes

The Command-Line Interface

Certification Objective 2.02

Router Basics

Router Elements  
Router Modes  
Examine the Router Status  
Cisco Discovery Protocol  
Remote Access to a Router  
Basic Testing  
Debug  
Routing Basics  
Certification Objective 2.03  
Initial Configuration  
Virtual Configuration Register Settings  
Startup Sequence-Boot System Commands  
Configuring to/from a TFTP Server  
Certification Objective 2.04  
AutoInstalling Configuration Data  
Certification Summary  
Two-Minute Drill  
SelfTest  
IP Addressing  
Cenification Objective 3.01  
Classes of IP Addresses  
Structure ofan IP Address  
Special Cases: Loopback, Broadcast  
and Network Addresses  
Identifying Address Classes  
Importance ofthe Subnet Mask  
Converting between Binary and Decimal  
Certification Objective 3.02  
Subnetting and Subnet Masks  
Purpose ofSubnetting  
Adding Bits to the Default Subnet Mask  
Cenification Objective 3.03  
Subnet Planning  
Choosing a Subnet Mask  
Impact on the Number ofHosts  
Determining Address Ranges for Each Subnet  
Certification Objective 3.04  
Complex Subnetting  
Crossing Octet Boundaries with Subnet Bits  
Variable-Length Subnet Masking  
Supernetting  
Certification Objective 3.05  
Configuring IP Addresses with Cisco IOS  
Setting IP Addresses and Parameters  
Host Name to Address Mappings  
Using Ping  
Using IP TRACE and Telnet

Certification Summary  
Two-Minute Drill  
SelfTest  
TCP/IP Protocol Suite  
Certification Objective 4.01  
Application Layer Services  
Certification Objective 4.02  
Presentation and Session Layer Services  
Remote Procedure Calls  
Sockets  
Transport Layer Interface  
NetBIOS  
Certification Objective 4.03  
Detailed Protocol Structure  
Transport Layer  
TCP  
UDP  
Ceitification Objective 4.04  
Network Layer  
Internet Protocol (IP)  
Address Resolution Protocol (ARP)  
Reverse Address Resolution Protocol (RARP)  
Inverse Address Resolurion Protocol (InARP)  
Internet Control Message Protocol (ICMP)  
Certification Objective 4.05  
Operating System Commands  
UNIX  
32-bit Windows  
Certification Summary  
Two-Minute Drill  
SelfTest  
5 IP Routing Protocols  
Certification Objective 5.01  
Why Routing Protocols?  
Theory  
Certification Objective 5.02  
Static Routes and Dynamic Routes  
Certification Objective 5.03  
Default Routes  
Certification Objective 5.04  
Link State vs. Distance Vector  
Distance Vector Routing Protocols  
Link-State Routing Protocols  
Interior vs. Exterior Gateway Protocols  
Certification Objective 5.05  
RIP  
Certification Objective 5.06

IGRP  
EIGRP  
Certification Objective 5.07  
OSPF  
Certification Summary  
Two-Minute Drill  
SelfTest  
6 IP Configuration  
Certification Objective 6.01  
IP Configuration Commands  
Certification Objective 6.02  
Configuring Static Routes  
Certification Objective 6.03  
Configuring Default Routes  
Certification Objective 6.04  
Configuring RIP Routing  
Certification Objective 6.05  
Configuring IGRP Routing  
Certification Objective 6.06  
IP Host Tables  
Certification Objective 6.07  
DNS and DHCP Configuration  
DNS Configuration  
Forwarding DHCP Requests  
Certification Objective 6.08  
Secondary Addressing  
Certification Summary  
Two-Minute Drill  
SelfTest  
7 Configuring Novell IPX  
Certification Objective 7.01  
IPX Protocol Stack  
Certification Objective 7.02  
IPX Datagram  
IPX Addressing  
IPX Routing  
Certification Objective 7.03  
IPX Encapsulation Types  
Ethernet-II  
Ethernet\_802.3  
Ethernet\_802.2  
Ethernet.SNAP  
Routing with Multiple Frame Types  
Certification Objective 7.04  
SAP and RIP  
SAP  
RIP

SAP and RIP Operation Example

Certification Objective 7.05

IPX Configuration

Preparation

Enabling IPX and Configuring the Interfaces

Routing Protocols

Certification Summary

Two-Minute Drill

SelfTest

8 AppleTalk Configuration

Certification Objective 8.01

AppleTalk Protocol Stack

Physical and Data Link Layers

Network Layer

Upper-Layer Protocols

Certification Objective 8.02

AppleTalk Services

Certification Objective 8.03

AppleTalk Addressing

Address Structure

Address Assignment

Certification Objective 8.04

AppleTalk Zones

Certification Objective 8.05

AppleTalk Routing

Certification Objective 8.06

AppleTalk Discovery Mode

Certification Objective 8.07

AppleTalk Configuration

Required AppleTalk Commands

AppleTalk Filtering

Verifying and Monitoring

AppleTalk Configurations

Certification Summary

Two-Minute Drill

SelfTest

9 Basic Traffic Management with Access

Certification Objective 9.01

Standard IP Access Lists

Certification Objective 9.02

Extended IP Access Lists

Certification Objective 9.03

Named Access Lists

Verifying IP Access Lists

Certification Objective 9.04

Standard IPX Access Lists

Certification Objective 9.05

IPX SAP Filters

Verifying IPX Access List Configuraron

Certification Objective 9.06

AppleTalk Access Lists

Certification Summary

Two-Minute Drill

SelfTest

10 Wide Area Networking

Certification Objective 10.01

Configuring ISDN

Configuring ISDN BRI

Configuring ISDN PRI

Certification Objective 10.02

Configuring X.25

Cenification Objective 10.03

Configuring Frame Relay

Virtual Circuits

Error Correction

Logical Interfaces

Configuring Frame Relay on a Cisco Router

Certification Objective 10.04

Configuring ATM

Certification Objective 10.05

Configuring PPP and Multilink PPP

PPP Configurations

Configuring Multilink PPP

Certification Summary

Two-Minute Drill

SelfTest

11 Virtual Local Area Networking (VLAN)

Certification Objective 11.01

Switching and VLANs

Certification Objective 11.02

Spanning-Tree Protocol and VLANs

Certification Objective 11.03

Default VLAN Configuration

Certification Objective 11.04

Configuring a VLAN Across a Domain

Certification Objective 11.05

Grouping Switch Ports to VLANs

Configure ISL Trunking

IEEE802.1Q Trunking

Troubleshooting VLANs

Certification Summary

Two-Minute Drill

SelfTest

A Self Test Answers

Chapter 1 Answers

Chapter 2 Answers

Chapter 3 Answers

Chapter 4 Answers

Chapter 5 Answers

Chapter 6 Answers

Chapter 7 Answers

Chapter 8 Answers

Chapter 9 Answers

Chapter 10 Answers

Chapter 11 Answers

B About the CD

CD-ROM Instructions

Electronic Book

Interactive Self-Study Module

C About the Web Site

Access Global Knowledge Network

What You'll Find There
