

<<飞行器导航、制导与控制技术>>

图书基本信息

书名：<<飞行器导航、制导与控制技术>>

13位ISBN编号：9787118071979

10位ISBN编号：7118071978

出版时间：2011-1

出版时间：国防工业出版社

作者：郭建国 等著

页数：309

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

## <<飞行器导航、制导与控制技术>>

### 内容概要

《飞行器制导、导航与控制技术》是针对高等工院校航天、航空飞行器控制和飞行器设计类专业学科本科生和研究生的专业科技英语课程而编著的，尤其适合作为本科生探测、制导与控制技术专业 and 研究生导航、制导与控制学科等的专业科技英语课程教材。

其主要目的是扩充学生的专业科技英语词汇量，提高学生的阅读翻译科技英语文献资料的能力，提升学生独立撰写专业研究性英语科技论文的综合能力，扩展和深化学生对本专业学科相关技术的认识，培养具有国际专业交流能力的科技人才。

全书分为三部分：第一部分重点介绍专业科技英语特点；第二部分主要为专业科技英语阅读，配有大量的航天、航空飞行器导航、探测、制导与控制专业领域的阅读材料；第三部分为专业科技英语的写作，重点介绍专业学术论文和研究性论文的写作方法。

书籍目录

Part I English for Science and Technology

Unit 1 Features of EST

Unit 2 Nomenclature in Speciality

Part Academic Reading

Chapter 1 Control Theory

Unit 1 The PID Controller

Unit 2 Analysis of Control System in State Space

Unit 3 Adaptive Control

Unit 4 An Introduction to Artificial Intelligence and Expert Systems

Unit 5 Introduction to Robotics

Chapter 2 Navigation System

Unit 1 Navigation in Three Dimensions(I)

Unit 2 Navigation in Three Dimensions( )

Unit 3 Global Navigation Satellites System

Unit 4 Biological Navigation Systems

Chapter 3 Detecting and Tracking System

Unit 1 Development of Infrared Countermeasure, Technology and Systems

Unit 2 Millimetre and Infrared Light Sources

Unit 3 Infrared Homing

Unit 4 Laser Guided Bomb

Chapter 4 Guidance and Control System of Missile

Unit 1 Line of Sight Guidance Systems

Unit 2 Proportional Navigation

Unit 3 Missile Control Methods

Unit 4 Aerodynamic Lateral Control

Unit 5 Theatre High-Altitude Area Defence Missile System

Unit 6 An Overview of Hardware-in-The-Loop Simulations for Missiles

Chapter 5 UAV and Aircraft

Unit 1 UAV Autonomous Operations for Airborne Science Missions

Unit 2 LUNA

Unit 3 How The Airplane Remains Airborne

Unit 4 Smart Sensor

Chapter 6 Spacecraft Orbital Control and Attitude Control

Unit 1 Space Vehicle Attitude Descriptions and Rotational Kinematics

Unit 2 Space Vehicle Attitude Dynamics and Control

Unit 3 Space Vehicle Attitude Sensors and Determination

Unit 4 Space Vehicle Attitude Actuators

Unit 5 Orbital Elements and Orbital Control

Unit 6 Relative Motion in Orbit and Satellite Formation

Unit 7 Spacecraft Simulation Experiments

Chapter 7 Advanced Spacecraft

Unit 1 The Hubble Space Telescope ...

Unit 2 The International Space Station: An Overview

Unit 3 Apollo spacecraft

Unit 4 Mars Exploration Rover

Chapter 8 Vehicle in the Stratosphere

Unit 1 NASA X-43

Unit 2 Airship Shaped Balloon Test Flights to The Stratosphere

Unit 3 Piloting of Airship

Part Writing

Unit 1 Academic Paper Writing

Unit 2 Writing for Research Paper
