## <<双赢的未来>>

### 内容概要

In the present world , the Chinese economy , along with the Chinese factor behind it , is a research field with tremendous value . How does China join hands with other countries to drive the development of the global economy? How to cooperate and eliminate the factor of uncertainty in the global economy? The aim of Huang Weiping等编著的《双赢的未来(全球化时代的中国经济)(英文版)》 is to enable local and overseas readers to appreciate the features of China ' S economic development and its role in the global economy of tomorrow , and to share our aspirations for the future growth of the world economy .

<<双赢的未来>>
