内容概要

从试卷的结构可以看出,围绕听、读、写、译(书面无法测试说的能力)和语言基础五个方面,用主观和客观两种题型进行测试。其中主观题占了较大的比重,这就有效防止了学生英语考试只会打()的不良倾向,实实在在测试了应试者的英语能力。此外,题目紧密结合日常的涉外活动,对高职高专的英语教学起到了良好的点拨和导向作用。

章节摘录

Task 2 Directions : This task is the same as Task 1. The 5 questions or unfinished statements are numbered 41 to 45. With Christmas just around corner , greeting cards are starting to appear in shops. But this year , paper cards are being left out in the cold as electronic Christmas tidings become more popular. Last year , a top-grade Christmas card could sell for 35 yuan , but now people won't even pay 15. As the Internet increasingly goes into our daily life , online living is becoming fashionable among teenagers and e-greetings are becoming more and more popular. The major consumers of greeting cards in China are young people. They are always quick to accept the newest lifestyles , so it's natural for them to favor e-cards over traditional paper cards.

Not only are e-cards new and attractive , but also quick and efficient. Young people used to send each other paper cards at Christmas. But the problem is what to do with them all after that ?

Now they can save e-cards onto a disk and easily open and enjoy them at any moment. The Internet offers a wide variety of choices. Many Internet content providers such as Yahoo , Sina and So hu provide e-greetings service. Many of these sites are free of charge , but an increasing number are introducing a small fee for their service.
