

<<电信技术专业英语>>

图书基本信息

书名：<<电信技术专业英语>>

13位ISBN编号：9787307056091

10位ISBN编号：7307056097

出版时间：2007-7

出版时间：武汉大学

作者：江华圣 编

页数：264

字数：412000

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<电信技术专业英语>>

内容概要

本书旨在提高读者阅读理解和翻译专业英语的应用能力和以英语为工具获取交流信息的专业技术。

全书在体例上以单元来划分。

每个单元都由课文、单词和词组、专业术语、注释、练习和阅读材料（阅读材料C为科普读物）组成。

每四个单元之后有一套自我测试题。

书中第二部分附有课文和部分阅读材料的参考译文，选材全部来自英文原版材料。

本书知识覆盖面宽，并注意题材的多样性，通俗易懂，尽量使学生达到学用结合的目的。

本教材适合通信、电子信息类专业及相关的计算机科学、计算机应用专业以及相近专业的大学本科和高职高专的学生使用，也可供广大工程技术人员学习和参考。

<<电信技术专业英语>>

书籍目录

Part One	Unit One	Text Digital Communications	Reading Material A The Technology——MANs
		Reading Material B Digital Communications Technology	Reading Material C Keypad
	Unit Two	Text Antennas	Reading Material A Networking
		Reading Material B Electrical Engineering	Reading Material C UFO
	Unit Three	Text A Brief History of Satellite Communications	Reading Material A Satellite Communications
		Reading Material B Microwave Communications System	Reading Material C Communication Satellite
	Unit Four	Text Data Communication	Reading Material A Laser
		Reading Material B Electricity-Generation and Transport	Reading Material C Light Waves
	Test Yourself		
	Unit Five	Text Amplifiers	Reading Material A Facsimile Transmission
		Reading Material B Fax via Email Cuts Costs	Reading Material C Water Communications
	Unit Six	Text Analog	Reading Material A Facsimile Equipment
		Reading Material B Video Conferencing	Reading Material C Pollution and Enviourament
	Unit Seven	Text Semiconductors	Reading Material A Pulse Code Modulation
		Reading Material B Communication Satellite Systems	Reading Material C A Trick for Trouble-shooting
	Unit Eight	Text Optical Communications	Reading Material A Optical Fiber Communications
		Reading Material B Put Your Business on the Internet	Reading Material C Laser and Communication
	Test Yourself		
	Unit Nine	Text Electromagnetic Radiation	Reading Material A The Electro-Magnet
		Reading Material B The Changing Role of the PBX	Reading Material C Crisis of Energy
	Unit Ten	Text Electrical Measurements	Reading Material A Modern Means of Communication
		Reading Material B ISDN	Reading Material C New Changing in Our Living
	Unit Eleven	Text Digital Signal Processors and Its Applications	Reading Material A Speech Synthesis
		Reading Material B Speech Recognition	Reading Material C Great Lakes
	Unit Twelve	Text Modern Role of Cryptography	Reading Material A An Initial Hint on Foundations of Cryptography
		Reading Material B Basis of Information Security	Reading Material C Saving Earth
	Test Yourself		
	Unit Thirteen	Text Communication Network	Reading Material A Future Network Architectures and Their Services
		Reading Material B Key Factors in Communication Network Evolution	Reading Material C Fresh Water
	Unit Fourteen	Text Signal and System	Reading Material A Overview of Specific Systems (1)
		Reading Material B Overview of Specific Systems (2)	Reading Material C Ecology
	Unit Fifteen	Text Introduction of ISDN	Reading Material A Broadband ISDN
		Reading Material B Network Management	Reading Material C Inner Ear
	Unit Sixteen	Text Characteristics of Communication Channels	Reading Material A How Computer Viruses Spread
		Reading Material B Using a Mouse	Reading Material C Microprobe
	Test Yourself		
	Final Test(A)		
	Final Test(B)		
	Part Two	课文与部分阅读材料参考译文	Appendix “ An overview of what make up an information system: people, procedures,software, hardware and data ”
	Appendix	Vocabulary	Appendix Terminology Practice and Applications
	Appendix	The following is a list abbreviations which appear in the text	Appendix Abbreviations for Network
	Appendix	Terminology for Electronics and Communications	参考文献
