

<<中国砂岩型铀矿床>>

图书基本信息

书名：<<中国砂岩型铀矿床>>

13位ISBN编号：9787502226770

10位ISBN编号：750222677X

出版时间：2002-9

出版单位：原子能出版社

作者：原子能社

页数：217

字数：394000

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<中国砂岩型铀矿床>>

书籍目录

Preface
1. Regional Metallogeny ISL-amenable Sandstone-type Uranium Deposit: Global Aspects and Recent Development in China
Regional Distribution of Uranium Deposits in Northern Asia
The Control of Himalayan Orogeny to in-situ Leachable Sandstone-type Uranium Deposits in Xinjiang Autonomous Region and its Adjacent Areas
A Regional Evaluation Model for the Basal-channel-type Sandstone Uranium Deposits
Geologic Evolution and Uranium Metallogenic Regularity of Yili Basin
2. Geology of Uranium Deposit
Characteristics of Uranium Mineralization and Ore-controls of Kujeertai Deposit, Yili Basin, Xinjiang Autonomous Region
Geological-Geochemical Characteristics of Shihongtan Uranium Deposit, SW Turfan-Hami Basin, Xinjiang Autonomous Region
Mineralization Characteristics of Dongtsheng Uranium Mineralized Area, Ordos Basin
Geologic Characteristics of Sandstone-type Uranium Deposits and Depositional System of Host Sediments, Bayantala Sag, Tengge'er Depression, Eren Basin, Inner Mongolian Autonomous Region
Metallogenetic Features and perspective evaluation of sandstone-type uranium mineralization in Hailaer Basin, NE China.....
3. Geochemistry and Isotope Geology
