## <<中国之旅>>

### 内容概要

Today, the 56 nationalities, including the Han nationality, live on China's 9.6-million square kilometers of territory. Along with the Han people, these minorities have added to the profound Chinese civilization with their own fascinating cultures. Their beautiful costumes with unique accessories, diverse food customs, fascinating traditions, celebrations and history represent significant elements of Chinese civilization. Such diversity is the basis from which China, as a multi-national country, continues to develop. China's sustainable development and prosperity can also be ascribed to this diversity. When you travel with us to the "homes" of these families of China, you will find their lives and customs endlessly fascinating and their cultures, ancient and mysterious. No matter where you're from, you won't fail to be charmed. Let's begin our journey now.
