## <<美国高考SAT全真模拟试题集>>

### 内容概要

《美国高考SAT全真模拟试题集》是SAT考试水平综合自测题集，题型多样化，内容丰富，实用性强。

SAT考试包括SAT、I推理测验（Reasoning Test）和SAT、II专项测验（Subject Tests）两个部分。SAT（Reasoning Test）考试时间为三小时四十五分钟，题型为选择题及写作，主要测验考生的阅读、数学及写作能力，满分是2400分。

SAT II（Subject Tests）时间为一小时，大部分为选择题，主要考查考生某一专业的知识。

可选择的SAT II单科考试科目有数学、物理、化学、生物、外语（包括汉语、日语、德语、法语、西班牙语）等，学生应根据各专业的要求报考。

MODEL TEST 6  
MODEL TEST 7  
MODEL TEST 8

## 章节摘录

( 30 ) allows hazardous recessive traits to come to the fore , resulting in physical problems and , in some cases , infertility ; and second , it leads to a genetically uniform population without the diversity to resist epidemics and environmental changes. But the scientists who resist the inbred cheetah dogma point out that many ZOO cats bear healthy cubs , are perfectly fertile and vigorous , and have great variation in their ( 35 ) immune systems. While the cheetah may look genetically tenuous when its DNA is appraised , by such real-life measurements as litter size , cub health , and immune response , the cheetah is perfectly fit for the millennium. The work of these scientists calls into question the validity of a strictly molecular approach to the sometimes murky science of species ( 40 ) preservation , and it strongly suggests that scientists do not yet understand why certain genetic patterns detected in laboratory tests translate into the genuine strengths and weaknesses of a wild animal. The work also indicates that ZOOS having trouble propagating cheetahs in captivity perhaps should not blame the animal ' S DNA. but rather their own ineptitude at the science of animal breeding. ( 45 ) In the final analysis , the cheetah ' S long-term future very remedies like preserving its remaining habitat and enlisting the help of those who live alongside it. In Namibia , where the cheetah does not have to compete with many other carnivores , as it does elsewhere in Africa , the feline fares reasonably well , and its biggest problem is ranchers who shoot it in the belief that the cat threatens their livestock. Biologists in Namibia are ( 50 ) seeking to convince the cattle owners that cheetahs in fact kill very few livestock animals , and to establish a compensatory program should a calf occasionally be lost , with its sizeable free-ranging pitched as a uniquely Namibian cat and thus a source of national pride. More than an ideal genetic profile , the cheetah needs a bit of panting room and all the public relations its noble bearing can buy. ....
