章节摘录

版权页： 插图： W: My name is Melissa. I was born in New Jersey, but two years ago my family moved to Washington, DC, capital of the United States. Washington, DC is a beautiful city located in the east of the USA. It's a wonderful place to live because there are many historical buildings and lots of museums. The city is also famous for the Capitol, the Lincoln Memorial and the White House, where the President lives. But my favorite place is a small park near my house where I hang out with my friends, and my scooter, of course. 1. M: Eat less meat. 2. W: Don't use plastic bags. 3. M: Don't buy products if animals were killed to make them. 4. W: Use solar energy and wind energy. 5. M: Whenever possible, use a bus or subway, or ride your bike or walk. 6. W: Turn off the lights when you leave the room. M: We live on the Earth. The Earth is very big. The Earth is a sphere, the same shape as a ball. The Earth spins every day. The Earth has land, where people and animals live. It has oceans, where fish and whales live. A globe is a model of the Earth. It looks like the Earth. We use a globe to learn about the Earth. A globe has pictures of land and water on it, so we can understand where those things are on the Earth.
