章节摘录

There are also lots of websites ( called Webcam sites ) which are linked to videocameras in different places around the world. One site, called Car , is linked to a model car in San Diego , California. You can sit at your computer and drive the car yourself , using the controls on your keyboard and watching the car on your screen. If you like sharks , visit Fiona ' s Shark Mania. It includes true stories about sharks , pictures of sharks , even poems about sharks. And then there is Frog land , for people who love frogs. Here you can see the Frog of the Month , and find out where to buy pet frogs and how to look after them. To feed your frog , You may need some live insects , and the best place for that is Mine Direct Live foods. You can order live insects from them over the Internet , and they will send them to you ( by post ) in plastic boxes.
