剑矛和方昭远编著的《瓷器》内容介绍："Highlights of Auctioned Chinese Antiques" comprises five volumes, namely, "Bamboo, Wood, Ivory and Horn Carvings", "Porcelain", "Jadeware", "Bronzeware" and "Ancient Furniture". Each volume contains around 150 representative items put up for auction from 1995 to 2010 at auctions held by dozens of auction companies from cities like New York, Nagel, London, Hong Kong, Macau, Taipei, Beijing, Shanghai, Tianjin, Nanjing, Guangzhou, Kunming, Chengdu and Jinan. The selection of the items is based on the style, texture, form, decorative pattern, workmanship, function, cultural implication and value of the antiques in question, including some items which have not yet been transacted.
