章节摘录

There are two types of people in the world. Although theyhave equal degree of health and wealth and other comforts of life , one becomes happy and the other becomes unhappy. This arisesfrom the different ways in which they consider things , persons , events and the resulting effects upon their minds. People who are to be happy fix their attention on the convenience of things : the pleasant parts of conversation , the well-prepared dishes , the goodness of the wine and the fineweather. They enjoy all the cheerful things. Those who are to beunhappy think and speak only of the opposite things. Therefore , they are continually dissatisfied. By their remarks , they sour thepleasure of society , offend (hurt) manypeople , andmakethemselves disagreeable everywhere. If this turn of mind wasfounded in nature , such unhappy persons would be the more tobe pitied.
