章节摘录

What is the best way to study ?

This is a very im-portant question. Some Chinese students often stu-dy very hard for many hours. It is a good habit, but it is not a good way to study. An efficient student must have enough sleeping, enough food and enough rest. Every week you need to go out for a walk or visit some friends or some nice places. These are good for your study. When you return to your studies, you will find yourself stronger than before and you will learn more.

Maybe we can say that studying is like tak-ing Chinese medicine. We don't mean that it is bitter. We mean that like Chinese medicine, the efficiency of your study comes slowly but surely. Learn slowly but surely everyday and effects will come just like Chinese medicine.
