<<简明中国冰川目录>>

内容概要

This book is a concise and synthetic monograph of Glacier Inventory of China , which consists of 12 volumes and 22 books. For convenience , we predigest the detailed data in Glacier Inventory of China , and add some new information about glaciers and environmental changes in each glaciated region , and new knowledge about glacier changes and their influence on water resources. This book consists of nine chapters. including the distribution of glaciers in each drainage system in China , glacier changes and its meltwater runoff. Especially is given an in-depth discourse by drainage basin , the amount of glaciers in statistics tables and maps of glacier distribution , classic glacier images and photos supplemented newly. This book is a systematic , all-round work in glacier resources and environmental changes , with abundant and original data and a mass of beautiful pictures. This book has offered a scientific support to natural strategy of water resources and management in Development of the West Regions of China. It is a useful reference book for those who do research in geography , water conservancy , disaster prevention and environment , and also for educational and productive purpose.

书籍目录

PREFACE Shi Yafeng
 CHAPTER 1 INTRODUCTION Shi Yafeng
 1 . 1 Significance of compiling Glacier Inventory of China
 1 . 2 International Glacier Inventory and Glacier Inventory of China
 1 . 3 Achievements of Glacier Inventory of China
 1 . 4 Aims of Concise Glacier Inventory of China
 CHAPTER 2 COMPILATION CRITERIA AND INTRODUCTION OF GLACIER INVENTORY OF CHINA Wang Zongtai and Zhu Guocai
 2 . 1 Sources of data in Glacier Inventory of China
 2 . 2 Measurements of geometrical parameters of a glacier
 2 . 3 Measurements of ice thickness and estimation of ice volume
 CHAPTER 3 PHYSICAL CONDITIONS FOR GLACIER DEVELOPMENT IN CHINA Liu Chaohai
 3 . 1 Mountains and glaciers in West China
 3 . 2 Climatic conditions for glacier development
 3 . 3 Glacier types and their distribution
 CHAPTER 4 DISTRIBUTION OF GLACIERS IN RIVER SYSTEMS Liu Chaohai
 4 . 1 Division of river systems and the coding method
 4 . 2 Features of glacier distribution in river systems
 4 . 3 Glacierization rate in mountain river basins
 CHAPTER 5 GLACIERS IN THE INTERIOR RIVERS Ding Liangfu , Wang Zongtai , Yang Hui an and Jiao Keqin
 5 . 1 The Ili River (5X04)
 5 . 2 The Hexi Interior Basin (5Y4)
 5 . 3 The Qaidam Interior Basin (5Y5)
 5 . 4 The Tarim Interior Basin (5Y6)
 5 . 5 The Junggar Interior Basin (5Y7)
 5 . 6 The Turpan-Hami Interior Basin (5Y8)
 5 . 7 The Qinghai-Tibetan Plateau Interior Area (5Z)
 CHAPTER 6 GLACIERS IN THE EXTERIOR RIVERS Liu Chaohai , Wang Zongtai and Pu Jianchen
 6 . 1 The Ertix River (5A25)
 6 . 2 The Yellow River (5J)
 6 . 3 The Yangtze River (5K)
 6 . 4 The Lancang River (5L) and the Nujiang River (5N)
 6 . 5 The Upper Reach of the Ganges Rivers (5O)
 6 . 6 The Upper Reach of the Indus River (5Q)
 CHAPTER 7 GLACIER RUNOFF Ye Baisheng
 7 . 1 Estimation of glacier runoff and regional change
 7 . 2 Glacial shrinkage and runoff change
 CHAPTER 8 GLACIER CHANGES IN WEST CHINA Liu Shiyin and Ding Yongjian
 8 . 1 Glacier changes since the Little Ice Age
 8 . 2 Glacier changes during recent decades.....
 CHAPTER 9 APPLICATIONS OF GLACIER INVENTORY OF CHINA REFERENCES
