## 前言

当您开始阅读本书时，人类已经迈入了21世纪。

这是一个变幻难测的世纪，这是一个催人奋进的时代，科学技术飞速发展，知识更替日新月异。希望、困惑、机遇、挑战，随时随地都有可能出现在每一个社会成员的生活之中。抓住机遇，寻求发展，迎接挑战，适应变化的制胜法宝就是学习——依靠自己学习，终生学习。

作为我国高等教育组成部分的自学考试，其职责就是在高等教育这个水平上倡导自学、鼓励自学、帮助自学、推动自学，为每一个自学者铺就成才之路，组织编写供读者学习的教材就是履行这个职责的重要环节。

毫无疑问，这种教材应当适合自学，应当有利于学习者掌握、了解新知识、新信息，有利于学习者增强创新意识、培养实践能力、形成自学能力，也有利于学习者学以致用、解决实际工作中所遇到的问题。

具有如此特点的书，我们虽然沿用了“教材”这个概念，但它与那种仅供教师讲、学生听，教师不讲、学生不懂，以“教”为中心的教科书相比，已经在内容安排、形式体例、行文风格等方面都大不相同了。

希望读者对此有所了解，以便从一开始就树立起依靠自己学习的坚定信念，不断探索适合自己的学习方法，充分利用已有的知识基础和实际工作经验，最大限度地发挥自己的潜能达到学习的目标。

欢迎读者提出意见和建议。

祝每一位读者自学成功。

## 章节摘录

5 Many apparently naive inquiries like why grass is green , or why the Sun is round , or why we need 55 , 000 nuclear weapons in the world——are really deep questions. The answers can be a gateway to real insights. It ' s also important to know , as well as you can , what it is that you dont know , and asking questions is the way. To ask “ stupid ” questions requires courage on the part of the asker and knowledge and patience on the part of the answerer. And don ' t confine your learning to schoolwork. Discuss ideas in depth with friends. Its much braver to ask questions even when thereS a prospect of ridicule than to suppress your questions and become deadened to the world around you. Listen carefully.

6 Many conversations are a kind of competition that rarely leads to dis- cavel、 on either side. When people are talking , don ' t spend the time thinking about what you ' re going to say next. Instead , ny to understand what they ' re saying , what experience is behind their remarks , what you can kam from or about them. older people have grown up in a world very different from yours , one you may not know very well. They , and people from other parts of the country and from other nations , have important perspectiv~that can enrich your life.
