Unit 8 Time off Vocabulary and structure Reading Integrated skills training
Unit 9 ave you got what it takes? Vocabulary and structure Reading Integrated skills training
Unit 10 cience fact or science fiction? Vocabulary and structure Reading Integrated skills training
Answer key

章节摘录

Eric Dowling, who died in 2008 at the age of 93, was an unsung hero who played a key role in one of the most exciting exploits of the Second World War, the escape of 76 Allied officers and men from the Stalag Luft III prison camp in Germany on March 24, 1944. He was a prisoner of war in Germany from 1942 to 1945, and during his imprisonment he kept a detailed record of his life, noting every title of the 411 books he read, every piece of music he played on the camp gramophone and every letter he received. He was known for his perfect handwriting and it was this skill and his close attention to detail that got him involved in the Great Escape, as it came to be known.

For almost a year before the Great Escape, prisoners in the camp dug three tunnels, called Tom, Dick and Harry, which started inside the huts where the prisoners lived and emerged just beyond the wire fence that surrounded the camp.
