前言

This book includes the world ' s excellent landscape design cases of recent years. Apart from a large number of exquisite pictures, there are planning floor plans, section drawings, hand drawings and detailed descriptions in this book, presenting the concepts and design methods of landscape design in a profound way from multi-angles. The editor divides the design works into 8 chapters according to the landscape functions, i.e. Residence, Park and Green Place, Commercial and Office Space, Culture and Education, Entertainment and Leisure, Waterfront and Ecology, Roof Garden and Square and Street. This book specially carries out analysis for the design styles of every work. There are not only concise and exquisite modern landscapes and classic landscapes with profound cultural connotations, but also magnificent south-eastern landscapes and Japanese landscapes set off by bridges, flowing water, pavilions, terraces and towers. With fine and smooth brushworks, the landscape designers delineate pictures of human beings coexisting in harmony with nature. It is about passion and imagination, about seclusion, benevolence and harmony. It is more about purity and perfection.

《国际创意景观(风格+功能)》是一本具有海量景观案例信息的设计画册。编者从景观设计案例的功能和景观设计风格两方面入手对每个案例进行了分类。这些案例既包括居住区私家庭院的景观设计、公园绿地的景观规划、文教商业空间的景观设计，又包括休闲娱乐空间的设计、滨水景观的规划、广场街道的组织与设计，更包括屋顶绿化设计。多种多样的景观设计案例不仅方便设计师查阅，丰富的景观设计图纸更有利于设计师掌握不同环境、不同要求下的景观设计的方法和原则。
