<<DALIAN DHINA (中国大连) >>

内容概要

Dalian is an important industrial base in China. Sectors such as petrochemicals, shipbuilding, diesel locomotives, refrigeration equipment and information technology all occupy important positions in China's industrial establishment. Dalian also functions as the financial center and the center of foreign exchange settlement in China's northeast. The ambitious Greater Dalian strategy that Dalian has put forward provides tremendous opportunities for the city's future development. Dalian is ready to work hand in hand with friends from across the country and around the world to create a prosperous tomorrow for us all.
