前言

大学英语应用类课程系列教材是苏州大学英语教师多年来教学研究成果的结晶。为了更有效地提高中国大学生英语应用能力,大学英语教师们坚持不懈地学习和研究国内外外语教学前沿理论和研究成果,深入探讨外语学习成功的诸多因素,多视角地展开实验性教学研究。广大教师通力合作,理论联系课堂教学实践,从大学英语教学目标、课程设置、教材使用、教学方法、评估手段、教学对象、学习动机、学习策略等方面,广泛地展开了英语教学有效性的探索,并因此形成了本套系列教材。

随着我国基础英语教学水平的不断提高,大学阶段的英语教学应该更多地重视培养学生学以致用的意识,着重提高学生综合应用一英语的能力,引导学生通过口头、书面、计算机网络等途径学习和运用专业知识,获取和交流信息、开展和表达创新性思维,以便他们成为直接参与21世纪全球科学技术与、经济发展的优秀人才。

基于我们对大学英语教学总目标的新认识,并结合近年来广大教师课堂教学实践的成功经验,我们编写了《英语口语交际》、《大学英语写作与翻译:生成及其转换》、《跨文化交际与地球村民》、《中华文明与地方文化英文导读》、《英语影视欣赏》、《医学英语入门》、《大学英语综合能力训练》系列教材。

章节摘录

2. Inscription Inscriptions were carvings and pictures. Some inscriptions conveyed meanings. For instance, on the inscription board of the Lisu nationality, a picture was recorded about three men meeting guests by presenting big, medium and small blocks of earth as gifts respectively to the high-ranking, medium-ranking, and low-ranking officials. Many inscribed symbols and some pictographs could be tracked in the ashes of the Yangshao Culture excavated in Banpo, Xian of Shanxi Province. 38 inscriptions on the pottery shards excavated in Jiansai, Shanxi Province were found to be similar to the characters of oracle bone scripts, like "wood", or "mound".

3. Logograph Many experts on writing systems state that the oldest ethnic writings were logographs. The hieroglyphs, applied by the Dongba record-keeper to record religious classics in the Naxi nationality, Yunnan Province, are extant logographs. Character symbols were found on the pottery shards of the Dawenkou Culture in Lingyang River, Shandong Province. They were crude images of an ax, a knife, the sun, a fire, and a mountain. An ideograph was the original form of Paleography. Chinese characters originated from the logograph that was invented earlier than the oracle bone scripts.
