《TALK WITH CHINESE》 is a highly practical phrase book for tourists in China. It gets straight to the point in every situation, in the hotels, restaurants, shops and on the planes and buses. To get you involved quickly in Two-way communication, the book includes the typical conversation and essential vocabulary on each topic. A compact disc is accompanied to make it easier. The picture process approach is another feature of the book. It allows a more lively and flexible presentation of the essential sentences for each scene.
