内容概要

The Accelerated series was developed to fill a void in the market. Many books are either too broad in scope and try to cover too much ground, or they are so narrow in scope they focus only on a particular area of the software's functionality. Neither is a good solution for the beginner market. The objective of the Accelerated series is to reduce the time it takes for a beginner to learn, internalize, and apply book knowledge to practical projects.

Every chapter is divided into three sections: concepts, foundation exercises, and professional tutorials. Concepts covers basic, need-to-know principles and theories. Step-by-step foundation exercises reinforce the concepts. More advanced tutorials then expand the learning. In the exercise and tutorial sections, there are sidebars containing notes and tips. Notes explain concepts in more detail than in the first section while tips dish out useful shortcuts and time-saving tricks. In addition, before and after screenshots are consistently provided right at the beginning of every hands-on exercise to give readers a clear idea of what can be achieved.

书籍目录

Chapter 1 Exploring the Flash 8 Workspace An Introduction to Flash 8 Installing Flash 8 The Flash 8 Interface Panels in Flash 8 Working with Flash Movies Getting Comfortable with the Stage Chapter 2 Flash Drawing Techniques Basic Drawing Tools Selection and Editing Tools Advanced Drawing and Editing Tools Chapter 3 Basic Elements of Animation Understanding the Basic Elements Understanding Timeline Effects Chapter 4 Animating in Flash Animation Methods Chapter 5 Advanced Animation Techniques Animating Masks Using Behaviors ActionScript Chapter 6 Working with Sounds Importing a Sound File Chapter 7 Working with Video Embedding Video and Controlling Playback Chapter 8 Creating Movies with Flash Lite About Flash Lite Chapter 9 It's Wtrap! Optimizing a Movie
