<<迷人的商店设计Dazzling Reta>>

内容概要

Dazzling Retail Design presents a wide range of shops selling clothing, accessories and more - modern temples of consumption that have opened recently in different parts of the world. This is a dynamic and colourful collection of some of the most forward-looking and inspiring shop designs in the world, from the studios of some of modern architecture's leading names. Each project is thoroughly documented with the designers' own notes and explanations, sketches, floor plans and glossy full-colour photographs. They show a common inclination towards calm and concise spaces and offer an inspiring range of formal proposals full of glamour.
