<<南非时尚 South Africa C>>

内容概要

South Africa Chic highlights the diversity that makes up this vast country. The vibrant pulse of Johannesburg and Cape Town provides the backdrop for city hotels which showcase bold styles characteristic of the new spirit of South Africa. Away from the city, urban cool gives way to rolling expanses of game reserves and lush mountain landscapes, where luxury lodges and comfortable country houses are nestled. All these are perfect places from which you can explore South Africa.
